

# 7500 Smoke Meter

The 7500 opacity meter is our most technologically advanced meter. Software based for laptop and PC use, this system may be customized to fit any application.

- ♦ Raw data test results are available
- ♦ Data collection file that can be easily saved and retrieved
- ♦ Meter decides pass or fail based on state parameters
- ♦ Log files may be retrieved by vehicle identification number or test sequence
- ♦ Log files may be saved to disk or copied to floppy disk for state inspections
- ♦ Complete with R.P.M, oil temperature, and ambient correction sensors
- ♦ Customers may use their own laptops if they meet necessary requirements
- ♦ Allows for snap-acceleration or follow mode testing. Can also perform stall and rolling tests
